MEDICINE CAN HEAL THE BODY,

## ***Art with a Heart*** ***in Healthcare***

Art with a Heart in Healthcare is dedicated to enhancing the lives of patients and their families through meaningful fine art experiences. We believe that creativity is essential to the human experience, and that artistic expression fosters health, well-being, and improved patient outcomes. These benefits extend to patients and their families, medical professionals, artists, and the broader Jacksonville community.

To continue offering these valuable art sessions and programs that enhance the healthcare experience for patients, we need your support.

Please consider supporting Art with a Heart in Healthcare. Regardless of the sponsorship level, your contribution helps fund art supplies and supports the artists who serve thousands of patients each year.

Thank you for your generosity,

*Christy Ponder*
